SplitEasy — Complete Designer Reference

This document is the single source of truth for every screen, component, and design token in the SplitEasy app. Organized in user-journey order: logo → onboarding → main tabs → detail screens → settings → premium. Read it top to bottom to understand the full visual language, or jump to any section you need.

---

0. DESIGN SYSTEM

Color Tokens

Token	Hex	Usage
`brand`	`#6366F1`	Indigo 500 — primary buttons, FAB, links, active state
`brandDark`	`#4338CA`	Indigo 700 — pressed / hover state
`brandLight`	`#EEF2FF`	Indigo 50 — subtle tinted backgrounds
`brandMid`	`#C7D2FE`	Indigo 200 — borders on light brand backgrounds
`logoBlueBrand`	`#3B5BDB`	Split-circle logo stroke + fill (slightly deeper blue)
`onboardingTop`	`#1A1560`	Near-black indigo — top of onboarding gradient
`onboardingMid`	`#2D2A6E`	Mid-tone indigo — middle band
`onboardingBottom`	`#3730A3`	Bright indigo — bottom band
`heroIndigo`	`#3730A3`	Group detail hero banner top half
`heroIndigoBright`	`#4F46E5`	Group detail hero banner bottom half
`settleGreen`	`#2D9B6F`	Primary settle-up action color
`settleGreenDark`	`#1A7A52`	Pressed state for settle-up
`pos`	`#059669`	Emerald 600 — money owed TO you (SACRED, never change)
`posBg`	`#D1FAE5`	Emerald 100 — positive balance chip background
`posDark`	`#065F46`	Emerald 900 — text on green backgrounds
`posAlt`	`#16A34A`	Green 600 — hero banner positive balance text
`posBgAlt`	`#DCFCE7`	Green 100 — alternate positive backgrounds
`neg`	`#DC2626`	Red 600 — money you OWE (SACRED, never change)
`negBg`	`#FEE2E2`	Red 100 — negative balance chip background
`negDark`	`#991B1B`	Red 900
`zero`	`#94A3B8`	Slate 400 — settled / zero balance
`pend`	`#D97706`	Amber 600 — needs action
`pendBg`	`#FEF3C7`	Amber 100 — pending backgrounds
`bg`	`#F8FAFC`	Slate 50 — default app background
`screenBg`	`#F2F3F7`	Groups list / group detail screen background

`white`	`#FFFFFF`	Cards, headers
`black`	`#000000`	Apple Sign-In button
`text1`	`#0F172A`	Slate 900 — primary text
`text2`	`#334155`	Slate 700 — secondary text, labels
`text3`	`#64748B`	Slate 500 — subtitles, hints
`text4`	`#94A3B8`	Slate 400 — placeholder text
`border`	`#F1F5F9`	Slate 100 — subtle row separators
`borderMid`	`#E2E8F0`	Slate 200 — input field borders

Money Color Language (SACRED — never break these rules)

- Positive amount (owed TO you) → `#059669` green
- Negative amount (you OWE) → `#DC2626` red
- Zero / settled → `#94A3B8` grey
- Needs action → `#D97706` amber

Typography Scale

Name	Size	Usage
`xs`	10px	Version string, micro labels
`sm`	12px	Section labels, badges, subtitles
`base`	14px	Body text, description, subtitles
`md`	15px	Button text, row titles
`lg`	18px	App name in header, screen subtitles
`xl`	20px	Group name in hero banner
`2xl`	24px	Screen headings
`3xl`	28px	Large amounts, hero stat values
`4xl`	36px	Balance banner total amount

Font weights: `regular` (400), `medium` (500), `semibold` (600), `bold` (700), `extrabold` (800)

Spacing Scale (base 4px)

Token	Value
space[1]	4px
space[2]	8px
space[3]	12px
space[4]	16px
space[5]	20px
space[6]	24px

space[8]	32px
space[10]	40px
space[16]	64px

Key Sizes

Name	Value	Usage
Button height	56px	All primary/auth buttons
FAB	56×56px	Floating action button
Tab bar	64px	Bottom navigation bar height
Icon SM	16px	Small inline icons
Icon MD	20px	Standard icons
Avatar pill	44px	Balance rows, member lists

Border Radius

Name	Value
xs	4px
sm	8px
md	12px
lg	16px
xl	20px
pill	9999px

---

1. LOGO DESIGN

The SplitEasy logo is a **split circle** — a circle divided vertically in half. Left half is solid white; right half is transparent (shows whatever is behind). A 1.5px vertical line divides the two halves. There is no SVG file yet — currently rendered entirely with View components.

Variant A — Splash Screen Logo (76px diameter)

- Circle diameter: 76px (radius 38px)
- Left half: solid `#FFFFFF` fill
- Right half: transparent, showing only the circle outline
- Circle outline: 1.5px stroke, `rgba(255,255,255,0.88)` — slightly off-white
- Center divider line: 1px, `#FFFFFF`
- Background behind it: dark indigo (#1A1560 area)
- The logo appears centered, vertically in the upper-center of the screen

Variant B — Sign-In Screen Logo (64px, two-color)

- Same split circle concept but the right half uses amber `#F59E0B`
- Left half: white
- Right half: amber
- Wordmark directly below: "Split" in white + "Easy" in amber `#F59E0B`

- This variant exists only on the sign-in screen for visual warmth

Variant C — Groups Home Header Logo (28px diameter)

- Diameter: 28px (radius 14px)
- Logo stroke color: `#3B5BDB` (logoBlueBrand)
- Left half fill: `#FFFFFF` (white card background)
- Divider: 1.5px, `#3B5BDB`
- Sits left of the "SplitEasy" wordmark in the app header

Variant D — Group Detail NavBar Logo (24px diameter)

- Diameter: 24px (radius 12px)
- Same as Variant C colors but smaller
- Sits centered in the nav bar, left of the group name

Wordmark

- Font: system bold
- Size: 18px (header), 28px (splash)
- Color on dark background: `#FFFFFF`
- Color on light background: `#3B5BDB` (logoBlueBrand)
- Letter spacing: default

---

2. ONBOARDING FLOW

2.1 SplashScreen

File: `src/screens/onboarding/SplashScreen/index.tsx`

Purpose: First screen the user ever sees. Establishes the brand, then routes to Welcome (new user) or Groups (returning user).

Background:

- Full-screen, no status bar content beneath
- Three layered Views create a gradient illusion:
  - Top: `#1A1560` (near-black indigo), fills entire screen
  - Mid: `#2D2A6E`, covers bottom 65% of screen
  - Bottom: `#3730A3`, covers bottom 35% of screen
- Behind the logo: a white radial glow (circular View, ~220px diameter, `rgba(255,255,255,0.05)`) centered behind the logo mark

Center Unit (logo group — animates as one block):

- The entire center unit fades in and scales from 0.72 → 1.0 with a spring animation (tension 52, friction 8, ~380ms)
- Content from top to bottom:
  1. **LogoMark** — 76px split circle (Variant A above)
  2. **Wordmark** — "SplitEasy", 28px bold white, 12px below logo
  3. **Divider** — 24px wide, 1px height, `rgba(255,255,255,0.3)`, 12px below wordmark
  4. **Tagline** — "SPLIT BILLS · KEEP FRIENDS", 11px semibold, `rgba(255,255,255,0.45)`, uppercase, letter-spacing 2.0, 10px below divider — fades in separately 280ms after logo, over 400ms

Version string:

- "v1.0.0", 10px, `rgba(255,255,255,0.2)`, absolute bottom-40px
- Fades in at the same time as the tagline

Navigation Logic:

- After 2 seconds total, checks AsyncStorage:

- No onboarding done → go to Welcome
- Onboarded but no groups → go to CreateGroup
- Onboarded + groups exist → go to Groups (main app)

2.2 WelcomeScreen (Carousel)

File: `src/screens/onboarding/welcome/index.tsx`

Purpose: 3-slide carousel that explains the app's core value props before sign-in. New users always see this.

Background:

- Top half: `#1A1560` (set as root background, bleeds through)
- Bottom half: `#2D2A6E` View overlaid on bottom

Skip button:

- Absolute top-right, 14px medium, `rgba(255,255,255,0.55)`
- Goes directly to SignIn screen

Carousel (FlatList, horizontal, paging):

- Each slide occupies 100% screen width
- Slide content from top to bottom:
  1. **Illustration area** — ~240px tall, centered, contains custom React Native illustration component (no external images yet, pure View shapes):
     - Slide 1 (`BillSplitIllustration`) — a receipt-like shape being split
     - Slide 2 (`BalanceIllustration`) — balance scale / number display
     - Slide 3 (`FriendsIllustration`) — avatars / friend icons
  2. **Title** — 24px bold white, centered, marginTop 32px
     - Slide 1: "Split any bill in 3 taps"
     - Slide 2: "Always know who owes whom"
     - Slide 3: "Friends need zero account"
  3. **Body text** — 16px regular, `rgba(255,255,255,0.65)` , centered, marginTop 12px
     - Slide 1: "No more mental math. No more awkward conversations."
     - Slide 2: "Real-time balances across every group."
     - Slide 3: "Add anyone by name."
  4. **Sub text** — 14px regular, `rgba(255,255,255,0.45)` , centered, marginTop 8px
     - Slide 1: "Just tap, split, done."
     - Slide 2: "Settle one person at a time."
     - Slide 3: "They never have to download anything."

DotIndicator:

- File: `src/screens/onboarding/welcome/components/DotIndicator.tsx`
- 3 dots, horizontally centered, 6px gap between dots
- Active dot: 20×6px white pill (rounded rectangle)
- Inactive dot: 6×6px, `rgba(255,255,255,0.3)` circle
- Transitions between active states in ~200ms

Next / Get Started Button:

- 56px height, full width minus 48px horizontal padding
- Background: `#FFFFFF` , borderRadius 12px
- Text: 16px semibold, `#1A1560` (dark)
- Label changes: "Next" on slides 1–2, "Get Started" on slide 3
- Press animation: spring scale 0.97 → 1.0

2.3 SignInScreen

File: `src/screens/onboarding/signin/index.tsx`

Purpose: Authentication gateway. Three modes: main (social/email choice), email form, forgot-password form.

Background:

- Same three-band dark indigo gradient as SplashScreen
- Radial glow: ~480px diameter circle, `rgba(76,29,149,0.55)`, positioned in upper third of screen behind the logo

Layout (ScrollView, bottom-aligned content): Padding: 24px horizontal, 72px top, 40px bottom

LogoMark

- File: `src/screens/onboarding/signin/components/LogoMark.tsx`
- Large centered logo, flex 1 with `justifyContent: flex-end` (pushes content to fill space above buttons)
- This is Variant B (two-color: left white, right amber) — pending final design decision

Hero Text

- Heading: "Welcome back", 28px bold white, centered
- Subtitle: "Your friends never need to download anything.", 14px, `rgba(255,255,255,0.4)`, centered
- 36px gap below subtitle before buttons

Error Display

- If error exists: 13px, `#DC2626`, centered above buttons

Auth Buttons (stacked, 12px gap between each)

1. SocialButton — Apple

- File: `src/screens/onboarding/signin/components/SocialButton.tsx`
- Height: 56px, full width, borderRadius 12px
- Background: `#000000` (Apple black)
- Left: Apple logo SVG (20px white)
- Label: "Continue with Apple", 15px semibold white, centered with gap 10px

2. SocialButton — Google

- Same 56px structure
- Background: `#FFFFFF`
- Left: Google "G" logo (colorful, 20px)
- Label: "Continue with Google", 15px semibold `#0F172A`

3. OrDivider

- File: `src/screens/onboarding/signin/components/OrDivider.tsx`
- 1px horizontal line, `rgba(255,255,255,0.15)`, full width
- Centered "or" label, 13px, `rgba(255,255,255,0.45)`
- 20px vertical margin

4. AuthButton — Email

- File: `src/screens/onboarding/signin/components/AuthButton.tsx`
- Height: 56px, borderRadius 12px
- Background: `rgba(255,255,255,0.07)` (frosted glass)
- Left: mail icon, 18px white
- Label: "Continue with Email", 15px semibold white

5. AuthButton — Guest

- Height: 56px, borderRadius 12px
- Background: transparent

- Border: 1.5px, `rgba(255,255,255,0.3)`
- Label: "Continue without account", 15px semibold `rgba(255,255,255,0.7)`

Footer

- Lock icon (16px white) + "Encrypted and private"
- 13px, `rgba(255,255,255,0.3)`, centered
- 32px top padding

Email Mode (EmailSignInView)

- File: `src/screens/onboarding/signin/components/EmailSignInView.tsx`
- Replaces main view entirely
- Contains: email TextInput, password TextInput (with show/hide toggle), Sign In button, Forgot Password link, back button
- Input style: 52px height, `rgba(255,255,255,0.08)` background, `rgba(255,255,255,0.2)` border, white text

Forgot Password Mode (ForgotPasswordView)

- File: `src/screens/onboarding/signin/components/ForgotPasswordView.tsx`
- Shows email-only input + "Send Reset Email" button
- Success state: icon + "Email sent" confirmation message

2.4 CreateGroupScreen (Step 1 of 2)

File: `src/screens/onboarding/createGroup/index.tsx`

Purpose: User creates their first group during onboarding. This step collects group name, image, color, and member names.

Background: `#F8FAFC` (light app bg — same as main app, not dark onboarding)

Skip button:

- Absolute top-right, 14px, `#64748B`
- Goes directly to Groups tab (bypasses group creation)

Header:

- "Create your first group", 24px bold `#0F172A`
- Step indicator: "1 of 2", 12px, `#94A3B8`, below heading
- Subtitle: "You can always add more people later.", 14px, `#64748B`

GroupImagePicker:

- File: `src/screens/onboarding/createGroup/components/GroupImagePicker.tsx`
- Large centered circle (~88px diameter) with group color background
- If no image: shows group name initials (24px bold white) or a camera icon
- If image selected: shows the photo in a circle crop
- Camera badge overlay: 28×28px white circle, bottom-right, contains camera icon
- CameraIcon: `src/screens/onboarding/createGroup/components/CameraIcon.tsx`

Group Name Input:

- Label: "GROUP NAME", 12px semibold `#334155`, uppercase, letter-spacing 0.8
- Input: 56px height, white bg, 1px `#E2E8F0` border, 8px radius
- Placeholder: "e.g. Spain Trip, Flat Bills", `#94A3B8`
- Auto-focuses on mount

Group Color Picker:

- Label: "GROUP COLOR"
- 8 color swatches in a row, 36×36px circles, 12px gap
- Colors: `#6366F1` (brand), `#059669`, `#D97706`, `#DC2626`, `#7C3AED`, `#0891B2`, `#BE185D`, `#16A34A`
- Selected state: 2.5px border, `#0F172A` (dark outline ring)

Members Section:

- Label: "MEMBERS"
- Each member: 56px TextInput (white, same style as name input) + ✕ remove button (right)
- "+ Add another member" link: 14px medium, `#6366F1`
- Minimum 1 member required

Error text: 13px, `#DC2626`, appears above CTA button

Create Group Button:

- 56px height, `#6366F1` background, 8px radius
- Label: "Create Group" / "Creating..." (loading state, opacity 0.6)
- White 15px semibold text

Skip link: "or skip for now", 13px, `#64748B`, centered below button

---

2.5 NotificationPromptScreen (Step 2 of 2)

File: `src/screens/onboarding/NotificationPromptScreen/index.tsx`

Purpose: Requests notification permissions. Final step before entering the main app. User can skip.

Background: `#F8FAFC` light — the screen uses a card-within-screen layout

Layout: Full-screen View → centered Card View

Card:

- Background: `#FFFFFF`, borderRadius 16px, padding 32px
- marginHorizontal 24px, shadow

BellIcon:

- 72×72px circle, `#EEF2FF` (brand light) background
- Bell emoji 🔔 centered, 36px font size

Heading: "Stay in the loop", 22px bold `#0F172A`, centered, 16px top margin

Progress indicator: "2 of 2", 12px `#94A3B8`, centered, 8px below heading

Subtitle: "Enable notifications so you always know what's happening with your money." 14px, `#64748B`, centered, lineHeight 22, 16px below heading

Benefits list (3 rows, 16px gap between):

- Each row: icon emoji (24px) + benefit text (14px, `#334155`)
- Row 1: 💰 "Know when someone settles up"
- Row 2: ➕ "See new expenses as they're added"
- Row 3: 👋 "Get nudged when a balance is overdue"

Enable Notifications button:

- 56px height, `#6366F1`, 12px radius, full width
- "Enable Notifications", 15px semibold white

Not Now link:

- "Not now", 14px medium, `#64748B`, centered, 16px top margin

---

3. MAIN TAB NAVIGATION

File: `src/navigation/MainTabs.tsx`

Purpose: Bottom navigation bar persistent across all 4 main tabs.

Tab Bar container:

- Height: 64px (plus safe area bottom inset)
- Background: `#FFFFFF`
- Top border: 1px `#F1F5F9`
- Shadow above: subtle upward shadow

4 Tabs (left to right):

Tab	Icon	Label	Screen
Groups	home	Groups	GroupsHomeScreen
Balances	bar-chart	Balances	BalancesScreen
Activity	activity	Activity	ActivityScreen
Settings	settings	Settings	SettingsHomeScreen

Per-tab item:

- 44×44px touch target (minimum)
- Icon: 22px, default color `#94A3B8`
- Label: 10px, default color `#94A3B8`
- **Active state:** icon + label color → `#6366F1` (brand), 2px top indicator bar (brand color, full tab width)
- Press: no scale animation, just color change

---

4. GROUPS HOME SCREEN

File: `src/screens/groups/GroupsHomeScreen/index.tsx`

Purpose: Main dashboard. Shows all the user's groups, their net balance, and a search bar. This is the app's home screen.

Background: `#FFFFFF` (white) — the header and group cards sit on white

Safe area: top only

4.1 Header Component

File: `src/screens/groups/GroupsHomeScreen/components/Header.tsx`

A fixed top bar (not sticky in scroll, always rendered above the FlatList).

- Height: auto (paddingVertical 12px)
- Background: `#FFFFFF`
- paddingHorizontal: 16px

Left side (logo + text):

- `SplitCircleLogo` — 28px diameter (Variant C), `#3B5BDB` brand blue
- Wordmark: "SplitEasy", 18px bold, `#3B5BDB`
- Subtitle: "{N} active groups", 12px regular, `#64748B`
- 8px gap between logo and text block

Right side (bell button):

- 40×40px pill (borderRadius pill), background `#F1F5F9`
- Contains `BellIcon` — custom View-based bell shape, stroke `#334155`

- If `notificationCount > 0`: red badge (16×16px pill, `#DC2626`) in top-right corner of the pill button, white border 1.5px, badge shows count number

4.2 BalanceBanner Component

File: `src/screens/groups/GroupsHomeScreen/components/BalanceBanner.tsx`

A full-width colored banner showing the user's total net balance across all groups.

- marginHorizontal: 16px, borderRadius: 16px
- Background: two-band gradient — top 40% `#1A7A52` (darker), bottom 60% `#2D9B6F` (settleGreen)
- Height: auto (paddingHorizontal 20px, paddingVertical 18px)

Left block:

- "TOTAL BALANCE" label: 11px semibold, `rgba(255,255,255,0.75)`, uppercase, letterSpacing 1.2
- Amount: 36px bold white, letterSpacing -0.5
  - Positive amount (owed to you): shows `+$124.50` in white (green bg implies good)
  - Negative amount (you owe): shows `-$38.00` in white (still white on green — context is net)
  - Zero: shows "$0.00"
- Subtext: "across N groups", 12px regular, `rgba(255,255,255,0.65)`

Right block:

- "Settle All" button: transparent bg, 1.5px white 60% border, pill shape
- 13px semibold white
- Hidden when balance is exactly zero

4.3 SearchBar Component

File: `src/screens/groups/GroupsHomeScreen/components/SearchBar.tsx`

- marginHorizontal: 16px, marginTop: 12px, marginBottom: 4px
- Height: 44px, background `#FFFFFF`, borderRadius: 10px
- Border: 1px `#E2E8F0`
- Left: search icon (18px, `#64748B`)
- TextInput: placeholder "Search groups...", `#94A3B8`
- Right: clear (✕) button, visible only when text is non-empty

4.4 Section Label

Inline in GroupsHomeScreen index, above the group list:

- "MY GROUPS", 12px semibold `#64748B`, uppercase, letterSpacing 0.8
- paddingHorizontal: 16px, marginBottom: 8px

4.5 GroupCard Component

File: `src/screens/groups/GroupsHomeScreen/components/GroupCard.tsx`

Each group in the list is one card row (white background, stacked with separators).

The entire list lives inside the FlatList on a white screen background. Cards are NOT individually rounded — they stack as rows within an implicit white area.

Per row layout (horizontal flex, 16px padding, 16px vertical):

- **Left: Group Icon Tile** — 48×48px, 12px radius, group's assigned pastel color
  - Contains group emoji centered, 24px font size
- **Center: Text block** (flex 1, marginLeft 12px)
  - Group name: 16px bold `#0F172A`, letterSpacing -0.1

    - Subtitle: 13px regular `#64748B` — e.g. "3 members · 5 expenses"
- **Right: Balance badge** (pill shape, paddingH 10px, paddingV 4px)
    - Positive: background `#D1FAE5`, text `#065F46` (dark green), shows "+$X.XX"
    - Negative: background `#FEE2E2`, text `#991B1B` (dark red), shows "-$X.XX"
    - Zero: transparent bg, `#94A3B8` border 1px, text `#94A3B8`, shows "Settled"

Row separator: 1px `#F1F5F9`, inset-left 76px (aligns with text, not icon), full width to right edge

No search results state:

- "No groups match "{search}"", 14px regular, `#94A3B8`, centered, paddingTop 40px

4.6 FAB (Floating Action Button)

- Position: absolute, bottom 24px + safe area, right 20px
- Size: 56×56px pill
- Background: `#6366F1` (brand)
- Icon: `plus` icon, 24px, white, strokeWidth 2
- Shadow: color `#6366F1`, opacity 0.35, radius 8, offsetY 4, elevation 6 (Android)
- Press: opacity → 0.85

4.7 Empty State (no groups)

Shown when user has no groups. Replaces the FlatList entirely.

- **Illustration:** 64×64px pill circle, background `#6366F1`, contains plus icon 36px white
- **Title:** "No groups yet", 22px bold `#0F172A`, centered
- **Subtitle:** "Create your first group to start splitting bills with friends." 14px regular `#64748B`, centered, lineHeight 21
- **Primary CTA:** "Create your first group" button, 56px, `#6366F1`, full width
- **Secondary link:** "Join an existing group", 14px medium, `#6366F1`, centered

---

5. GROUP DETAIL SCREEN

File: `src/screens/groups/GroupDetail/index.tsx`

Purpose: Shows a single group's full details — member balances, recent expenses, and a button to add new expenses.

Background: `#F2F3F7` (screenBg) — slightly grey, makes white cards float

Safe area: top only

5.1 NavBar Component

File: `src/screens/groups/GroupDetail/components/NavBar.tsx`

Sticky top navigation bar.

- Height: auto (paddingHorizontal 16px, paddingVertical 12px)
- Background: `#FFFFFF`

Left slot (36px wide):

- `chevron-left` icon, 22px, color `#3730A3` (heroIndigo)
- Navigates back to Groups Home

Center slot (flex 1):

- `SplitCircleLogo` 24px (Variant D) + group name text
- Group name: 18px bold `#0F172A`
- Logo and name have 8px gap

Right slot (36px wide):

- Custom cog icon (pure View-based, no SVG):
  - 24px outer circle, 2px border, `#64748B`
  - 8 rectangular teeth (4×7px each), evenly rotated at 45° intervals, `#64748B`
  - 8px solid inner circle, `#64748B`
- Navigates to GroupSettings

5.2 HeroBanner Component

File: `src/screens/groups/GroupDetail/components/HeroBanner.tsx`

The visual hero card at the top of the group detail.

- marginHorizontal: 16px (added by parent card wrapping)
- borderRadius: 16px, overflow hidden
- paddingHorizontal: 20px, paddingTop: 20px, paddingBottom: 16px

Background (two-band split):

- Top 50%: `#3730A3` (heroIndigo)
- Bottom 50%: `#4F46E5` (heroIndigoBright)

Decorative orb:

- 180×180px circle, `rgba(255,255,255,0.10)`, positioned top: -40px, right: -40px
- Bleeds out of top-right corner for depth

Top section:

- Title row: star-filled icon (14px white filled) + group name (20px bold white, flex 1)
- Member count: 14px regular, `rgba(255,255,255,0.80)` — e.g. "4 members"

Divider: hairline 1px, `rgba(255,255,255,0.25)`, full width, 16px below member count

Stats row (two cells):

Left cell — "YOUR BALANCE":

- Label: "YOUR BALANCE", 11px semibold, `rgba(255,255,255,0.75)`, uppercase, letterSpacing 1.2
- Amount: 26px bold
  - Positive balance → `#16A34A` (posAlt green)
  - Negative or zero → `#FFFFFF` (white)

Right cell — "TOTAL SPENT":

- Label: "TOTAL SPENT", same label style
- Amount: 26px bold white

Vertical divider between cells: hairline, `rgba(255,255,255,0.25)`, 52px tall, marginH 16px

5.3 Balances Card

White card: background `#FFFFFF`, marginHorizontal 16px, marginTop 12px, borderRadius 16px, overflow hidden

SectionHeader (inside card):

- File: `src/screens/groups/GroupDetail/components/SectionHeader.tsx`
- "Balances" (16px bold `#0F172A`) on left
- No "See All" for this card in group detail

BalanceRow Component:

- File: `src/screens/groups/GroupDetail/components/BalanceRow.tsx`

- paddingHorizontal 16px, paddingVertical 14px

Per row:

- **Avatar pill:** 44×44px circle, member's assigned color bg, initials (14px bold white, letterSpacing 0.5)
- **Text block** (flex 1, marginLeft 12px):
  - Name: 15px semibold `#0F172A`
  - Relation text: 12px regular `#64748B`
    - "owes you $X.XX" (positive)
    - "you owe $X.XX" (negative)
    - "settled up" (zero)
- **Right side:**
  - Balance badge (pill): same color rules as GroupCard balance badge
  - If balance non-zero: "Settle" button (30px height, `#2D9B6F` bg, pill, 13px semibold white)

Row separator: 1px `#F1F5F9`, inset-left 72px

5.4 Recent Expenses Card

Same card shell as Balances card.

SectionHeader:

- "Recent" on left
- "View all >" on right, 13px medium `#6366F1`, navigates to ActivityFeed

RecentExpenseRow Component:

- File: `src/screens/groups/GroupDetail/components/RecentExpenseRow.tsx`
- paddingHorizontal 16px, paddingVertical 14px

Per row:

- **Icon tile:** 44×44px, 12px radius, `#4F46E5` (heroIndigoBright) background, emoji or icon centered
- **Text block** (flex 1):
  - Expense name: 15px bold `#0F172A`
  - Meta: 13px regular `#64748B` — "Paid by {name} · {date}"
- **Right:** amount, 14px semibold — color follows money color language

Row separator: 1px `#F1F5F9`, inset-left 72px, inset-right 16px

5.5 AddExpenseBar Component

File: `src/screens/groups/GroupDetail/components/AddExpenseBar.tsx`

A sticky bar at the bottom of the screen (above safe area).

- Height: 52px
- marginHorizontal: 16px, marginBottom: 16px
- Background: `#EEF2FF` (brandLight)
- Border: 1.5px `#C7D2FE` (brandMid)
- BorderRadius: 14px
- Content: plus icon (18px `#6366F1`) + "Add Expense" (15px semibold `#6366F1`)
- Horizontally centered, 8px gap between icon and text

---

6. ADD EXPENSE SCREEN

File: `src/screens/groups/AddExpenseScreen/index.tsx`

Purpose: Full form for adding a new expense to a group. Supports 3 split methods (equal, exact, percentage).

Header: ScreenHeader component — "Add Expense" title, back chevron on left

Background: `#F8FAFC` (bg)

Section 1 — Amount Hero:

- `AmountInput` component centered
- File: `src/screens/groups/AddExpenseScreen/components/AmountInput.tsx`
- Large currency display (e.g. "$0.00"), 40px+ font, tappable to open numeric keyboard
- Currency symbol prefix on left

Section 2 — Details Card (white, 16px radius, marginHorizontal 16px):

- "Details" section label: 12px semibold `#64748B`, uppercase
- `InputField` — description, placeholder "What was it for?", receipt icon on left
- `CategoryPicker` — horizontal scroll of emoji category chips

CategoryPicker Component:

- File: `src/screens/groups/AddExpenseScreen/components/CategoryPicker.tsx`
- Categories: Stay 🏠, Food 🍔, Travel ✈️, Fun 🎉, Grocery 🛒, Utility 💡, Activity 🏃, Other 📦
- Each category: pill chip with emoji + label
- Selected: `#6366F1` border + `#EEF2FF` background
- Unselected: `#E2E8F0` border + white background

Section 3 — Paid By Card (white card):

- `SelectRow` — "Paid by" label on left, selected member name on right with chevron
- Tapping opens a member picker (not yet implemented)

Section 4 — Split Card (white card):

- "Split" section label

SplitMethodTabs:

- File: `src/screens/groups/AddExpenseScreen/components/SplitMethodTabs.tsx`
- 3 pill tabs: "Equal" | "Exact" | "%" (percentage)
- Active: `#6366F1` background white text
- Inactive: `#F1F5F9` background `#64748B` text

MemberSplitRow per member:

- File: `src/screens/groups/AddExpenseScreen/components/MemberSplitRow.tsx`
- Avatar pill (32px) + member name + right-side amount/percentage input
- Equal mode: shows calculated share, read-only
- Exact mode: editable currency input per member
- Percentage mode: editable % input per member

Section 5 — Date + Notes Card (white):

- `SelectRow` — "Date", today's date, chevron
- Notes `InputField` — multiline, 3 lines, "Add a note..." placeholder

Save Button:

- `Button` primary variant, "Save Expense", full width, `#6366F1` bg

---

7. SETTLE UP SCREEN

File: `src/screens/groups/SettleUpScreen/index.tsx`

Purpose: Records a payment settlement between two members.

Header: ScreenHeader — "Settle Up", back chevron

Subheader: "Settling with {Name}", 16px semibold `#0F172A`, paddingHorizontal 16px

Amount Card (white, 16px radius, centered):

- `AmountDisplay` component — xl size, shows amount without sign
- The amount is pre-filled from the balance owed (e.g. "$48.00")

Payment Method Section:

- Label: "Payment Method", 14px semibold `#334155`
- 3 `Chip` components in a row:
  - "Cash" | "Bank Transfer" | "Other"
  - Selected chip: `#6366F1` border + `#EEF2FF` tint
  - Default: Cash

Form Section:

- `InputField` — "Notes", optional, edit icon on left
- `SelectRow` — "Date", today's date

Confirm Settlement Button:

- `Button` primary — "Confirm Settlement", full width, `#6366F1`
- On press: shows Alert confirmation dialog

---

8. EXPENSE DETAIL SCREEN

File: `src/screens/groups/ExpenseDetailScreen/index.tsx`

Purpose: Read-only view of a single expense with edit/delete actions.

Header: ScreenHeader with back button + edit icon in top-right

Content:

- Expense name (large heading)
- Total amount (large display)
- Category icon + label
- "Paid by {name}" row
- Date row
- Split breakdown — member list with their share amounts
- Notes (if present)
- Delete button (destructive, red text or red background)

---

9. EDIT EXPENSE SCREEN

File: `src/screens/groups/EditExpenseScreen/index.tsx`

Purpose: Same form as AddExpenseScreen, pre-filled with existing expense data.

Differences from AddExpense:

- Header title: "Edit Expense"
- All fields pre-populated
- Additional "Delete Expense" button at bottom (destructive, red)
- Delete triggers a confirmation Alert before removing

---

10. ACTIVITY FEED SCREEN (Group-specific)

File: `src/screens/groups/ActivityFeedScreen/index.tsx`

Purpose: Full history of all expenses and settlements within one group. Opened from "View all >" on the Group Detail screen.

Layout: Same as Activity tab screen (see Section 12) but filtered to a single group. Header shows group name instead of tab filters.

---

11. GROUP SETTINGS SCREEN

File: `src/screens/groups/GroupSettingsScreen/index.tsx`

Purpose: Edit group details and danger actions.

Header: ScreenHeader — "Group Settings", back chevron

Sections:

1. **Group Info** — edit name, image, color (same UI as CreateGroup)
2. **Members** — list all members, tap to rename or remove
3. **Add Members** — "Add Member" row with chevron → AddMemberScreen
4. **Danger Zone** — "Leave Group" (orange/amber) + "Delete Group" (red)

---

12. ADD MEMBER SCREEN

File: `src/screens/groups/AddMemberScreen/index.tsx`

Purpose: Add new members to an existing group.

Header: "Add Members", back chevron

Content:

- Search/input field for member name
- Member name input (same style as CreateGroup member inputs)
- "+ Add another" link
- "Add Members" primary button

---

13. EXPORT PDF SCREEN

File: `src/screens/groups/ExportPDFScreen/index.tsx`

Purpose: Premium feature — generate and share a PDF report of a group's expenses. Shown to free users with an upgrade prompt.

Header: "Export PDF", back chevron

Content:

- Preview of what the PDF will contain (date range, member list, expenses)
- "Export PDF" primary button
- For free users: `PremiumBanner` overlaid or instead, directing to Paywall

---

14. BALANCES SCREEN (Tab 2)

File: `src/screens/balances/BalancesScreen/index.tsx`

Purpose: Cross-group overview of all outstanding balances with every person the user has shared expenses with.

Background: `#F8FAFC` (bg)

Safe area: top only

14.1 Screen Title

- "Balances", 24px bold `#0F172A`
- paddingHorizontal 16px, paddingTop 8px

14.2 NetSummaryBanner

File: `src/screens/balances/BalancesScreen/components/NetSummaryBanner.tsx`

A two-column summary card.

- marginHorizontal 16px, borderRadius 12px
- Background: white card with light shadow
- Left column: "OWED TO YOU" label + total positive amount (green)
- Right column: "YOU OWE" label + total negative amount (red)
- A vertical hairline divider separates the two columns

14.3 Filter Chips

Three `Chip` components in a horizontal row:

- "All" | "Owed to you" | "You owe"
- paddingHorizontal 16px, gap 8px
- Same chip style as elsewhere: selected = brand indigo

14.4 Balances Section Header

`SectionHeader` component (compact variant) — "BALANCES"

14.5 PersonBalanceRow

File: `src/screens/balances/BalancesScreen/components/PersonBalanceRow.tsx`

Shown inside a white card (borderRadius 16px, marginHorizontal 16px).

Per row:

- **Avatar pill:** 44×44px, member color bg, initials (white bold)
- **Text block** (flex 1):
  - Name: 15px semibold `#0F172A`
  - Sub-label: 12px regular `#64748B` — e.g. "1 group · owes you" or "1 group · you owe"
- **Right:**
  - Amount: 13px semibold, colored by money language
  - "Settle" button (30px pill, `#2D9B6F` bg, white text) if balance non-zero

Row separator: 1px `#F1F5F9`, inset-left 72px

14.6 Empty State

When all balances are zero (filter = "all") or no items match filter:

- `EmptyState` component: check-circle icon, "All settled up", "No outstanding balances"

---

15. ACTIVITY SCREEN (Tab 3)

File: `src/screens/activity/ActivityScreen/index.tsx`

Purpose: Chronological log of every expense and settlement across all groups.

Background: `#F8FAFC`

Safe area: top only

15.1 ActivityHeader (Sticky)

File: `src/screens/activity/ActivityScreen/components/ActivityHeader.tsx`

- Background: `#FFFFFF` , borderBottom 1px `#F1F5F9`
- Title: "Activity" (or within the header area)
- 3 filter chips: "All" | "Expenses" | "Settlements"
- Same chip style — selected = brand

15.2 ActivityDateSection (Sticky Section Headers)

File: `src/screens/activity/ActivityScreen/components/ActivityDateSection.tsx`

- SectionList sticky headers
- Background: `#F8FAFC` (matches screen, floats cleanly)
- Label: relative date string — "Today", "Yesterday", "Last week", "Last month", or formatted date
- 12px semibold `#64748B` , paddingHorizontal 16px, paddingVertical 8px

15.3 ActivityEventRow

File: `src/screens/activity/ActivityScreen/components/ActivityEventRow.tsx`

Per event row (inside a white card group per date):

- **Icon tile:** 44×44px, 12px radius
  - Expense events: `#4F46E5` (brand-ish blue) background
  - Settlement events: `#D1FAE5` (green bg) background
  - Icon centered: receipt, credit-card, home, tag, dollar, check-circle etc.
- **Text block** (flex 1):
  - Description: 15px bold `#0F172A` — e.g. "Dinner at Nobu"
  - Group name: 13px regular `#64748B` — e.g. "Tokyo Trip"
- **Right:**
  - Amount: 14px semibold
    - Expense: color by money language (your share owed = red, you paid = green)
    - Settlement: green if someone paid you, neutral otherwise
  - Date: 12px `#94A3B8`

Row separator: 1px `#F1F5F9`

15.4 Empty State

`EmptyState` component: activity icon, "No activity yet", "Your expense and settlement history will appear here"

---

16. SETTINGS SCREEN (Tab 4)

File: `src/screens/settings/SettingsHomeScreen/index.tsx`

Purpose: User account settings, app preferences, premium upgrade prompt, and sign-out.

Background: `#F8FAFC`

ScreenHeader: "Settings" title (no back button — this is a tab root)

16.1 ProfileCard

File: `src/screens/settings/SettingsHomeScreen/components/ProfileCard.tsx`

A tappable card at the top of Settings.

- Background: `#FFFFFF`, borderRadius 16px, marginHorizontal 16px
- Layout: horizontal flex, 16px padding

Left: Avatar

- 52×52px pill, brand color bg, initials (18px bold white)

Middle: Text block (flex 1, marginLeft 12px):

- Name: 17px semibold `#0F172A`
- Email: 13px regular `#64748B`
- If isPremium: small crown icon + "Premium" badge (amber pill)

Right: chevron-right icon, 16px `#94A3B8`

16.2 PremiumBanner (compact, free users only)

File: `src/components/molecules/PremiumBanner/index.tsx`

Shown between ProfileCard and settings groups for free users only.

- Compact variant: single row with crown icon, title, subtitle, "Upgrade" button
- Background: gradient from `#6366F1` to `#4338CA`
- Text: white
- CTA button: white bg, brand text

16.3 SettingsGroup Component

File: `src/screens/settings/SettingsHomeScreen/components/SettingsGroup.tsx`

A labeled group of settings rows in a white card.

- Group title: 11px semibold `#94A3B8`, uppercase, letterSpacing 0.8, paddingHorizontal 16px
- Card: `#FFFFFF`, borderRadius 12px, marginHorizontal 16px, overflow hidden
- Rows separated by 1px `#F1F5F9`

Three groups:

ACCOUNT group:

- Profile row — user icon on brand indigo bg → navigates to Profile
- Default Currency row — dollar icon on green bg → navigates to DefaultCurrency
- Notifications row — bell icon on amber bg → navigates to Notifications

APP group:

- About row — info icon on grey bg → navigates to About
- Rate App row — star icon on amber bg → opens App Store rating
- Share App row — share icon on brand bg → opens native share sheet

DANGER group:

- Sign Out row — log-out icon on red `#DC2626` bg
- Red icon tile signals destructive action
- No chevron; shows "Sign Out" right label
- Triggers confirmation Alert before signing out

16.4 ListRow Component

File: `src/components/molecules/ListRow/index.tsx`

Reusable row used inside SettingsGroup (and elsewhere).

- Height: 52px, paddingHorizontal 16px
- **Left icon:** `RowIcon` — 32×32px circle with background color + 16px icon (white)
- **Title:** 15px medium `#0F172A`, flex 1, marginLeft 12px
- **Right:** chevron-right (16px `#94A3B8`) OR right label text OR toggle

---

17. SETTINGS DETAIL SCREENS

17.1 ProfileScreen

File: `src/screens/settings/ProfileScreen/index.tsx`

Header: "Profile", back chevron

Content:

- Large avatar (80px), tappable to change photo
- Display name input (pre-filled)
- Email (read-only, or editable)
- "Save" primary button

17.2 DefaultCurrencyScreen

File: `src/screens/settings/DefaultCurrencyScreen/index.tsx`

Header: "Default Currency", back chevron

Content:

- Search field for currencies
- List of currencies (USD, EUR, GBP, JPY, etc.)
- Each row: currency code + full name + flag emoji
- Selected currency: checkmark on right, brand color

17.3 NotificationsScreen

File: `src/screens/settings/NotificationsScreen/index.tsx`

Header: "Notifications", back chevron

Content:

- Toggle rows for each notification type:
  - New expenses added
  - Someone settles up
  - Payment reminders
  - Group activity
- Each row uses `ListRow` with `Toggle` component on right

17.4 AboutScreen

File: `src/screens/settings/AboutScreen/index.tsx`

Header: "About", back chevron

Content:

- App logo (centered)
- App version number
- Rows: Rate SplitEasy, Share with friends, Privacy Policy (external link), Terms of Service (external link)

- Footer: copyright text

---

18. ADS

The free tier of SplitEasy includes non-intrusive ads. The `PremiumBanner` component (`src/components/molecules/PremiumBanner/index.tsx`) serves as the upgrade prompt that appears in place of or adjacent to ad slots.

Ad placement strategy:

- **Settings screen:** `PremiumBanner` (compact) below ProfileCard, above settings groups — always visible for free users
- **FreeLimitsScreen:** Full `PremiumBanner` at bottom of screen after usage limits list
- **ExportPDFScreen:** `PremiumBanner` blocks the export button / overlays screen for free users
- **GroupsHomeScreen:** A future banner ad slot may appear between groups (between group N and N+1) — every 5 groups for free users
- **ActivityScreen:** A future inline ad row may appear within the SectionList after every 10 activity events

PremiumBanner (full variant):

- Background: brand gradient (`#6366F1` → `#4338CA`)
- Crown icon (24px white)
- Title: "Unlock Premium" — 17px bold white
- Feature bullets: list of 2–3 features with white checkmarks
- CTA: "Upgrade" pill button — white bg, brand text, bold

PremiumBanner (compact variant):

- Same gradient bg but single row
- Crown icon + title + subtitle + "Upgrade" button in one line
- Height: ~64px

---

19. PAYWALL SCREEN

File: `src/screens/paywall/PaywallScreen/index.tsx`

Purpose: Full-screen premium subscription purchase screen. Presented modally (user can close it with the ✕ button).

Background: `#0F172A` (very dark, near-black slate) — premium feel

Close button:

- Absolute top-right, 36×36px
- ✕ (`close`) icon, 20px, white, `rgba(255,255,255,0.6)` background circle

Hero Section:

- Crown icon in a 56×56px circle (`#6366F1` bg, 24px white crown)
- Title: "SplitEasy Premium", 26px bold white, centered
- Subtitle: "Everything you need to split smarter", 14px `rgba(255,255,255,0.6)` , centered

Feature Rows:

FeatureRow Component:

- File: `src/screens/paywall/PaywallScreen/components/FeatureRow.tsx`
- 6 features listed vertically with 16px gap:
    1. Unlimited groups
    2. PDF export
    3. Multi-currency support
    4. Receipt scanning

    5. Priority support
    6. No ads ever

- Each row: green checkmark icon (20px) + feature label (15px medium white)

Pricing Cards:

PricingCard Component:

- File: `src/screens/paywall/PaywallScreen/components/PricingCard.tsx`
- Two cards side by side in a row: "Monthly" + "Annual"
- Each card: background `rgba(255,255,255,0.08)`, borderRadius 16px, 1px border
  - Unselected border: `rgba(255,255,255,0.15)`
  - Selected border: `#6366F1` (brand), 2px
- Plan name: 13px semibold white
- Price: 22px bold white
- Period: 12px `rgba(255,255,255,0.6)`
- "Save 33%" badge (Annual only): small amber pill on top-right corner of card
- Annual card is selected by default

Start Free Trial Button:

- `Button` primary, "Start Free Trial"
- 56px, `#6366F1`, full width, 16px radius
- White 15px semibold text

Restore Purchases Link:

- "Restore purchases", 13px medium, `rgba(255,255,255,0.5)`, centered

Footer:

- "Terms · Privacy", 12px `rgba(255,255,255,0.35)`, centered

---

20. FREE LIMITS SCREEN

File: `src/screens/premium/FreeLimitsScreen/index.tsx`

Purpose: Shows the user how much of their free tier quota they've used. Motivates upgrading by showing limits at or near capacity.

Header: ScreenHeader — "Usage Limits", back chevron

Background: `#F8FAFC`

YOUR PLAN section:

- `SectionHeader` — "YOUR PLAN"
- `InfoCard` (warning variant):
  - File: `src/components/molecules/InfoCard/index.tsx`
  - Alert-circle icon, amber accent
  - Title: "Free Plan"
  - Body: "Upgrade to Premium for unlimited access to all features."

CURRENT USAGE section:

- `SectionHeader` — "CURRENT USAGE"
- White card (borderRadius 12px) containing `LimitRow` entries

LimitRow Component:

- File: `src/screens/premium/FreeLimitsScreen/components/LimitRow.tsx`
- Per row (paddingHorizontal 16px, paddingVertical 14px):

    - Label: 15px medium `#0F172A`
    - `ProgressBar` component: fills `used/total` ratio
        - Green if under 50%, amber if 50–80%, red if >80%
    - Usage text: "{used} / {total}", 12px `#64748B`
- Rows separated by hairline divider

4 Limits shown:

Limit	Used	Total
Groups	3	3
Expenses per group	10	10
Members per group	5	10
Receipt photos	2	5

PremiumBanner (full variant) at bottom:

- Features: "Unlimited groups", "Unlimited expenses", "PDF export"
- CTA navigates to Paywall

---

21. PREMIUM FEATURES SCREEN

File: `src/screens/premium/PremiumFeaturesScreen/index.tsx`

Purpose: Marketing screen detailing what Premium unlocks. Accessed from PremiumBanner or Settings.

Header: ScreenHeader — "Premium Features", back chevron

Background: `#F8FAFC`

Hero Banner (inside the scroll):

- Full-width card, borderRadius 16px, marginHorizontal 16px
- Background: `#6366F1` (brand indigo)
- Crown icon (24px white) in 44×44px `rgba(255,255,255,0.15)` circle
- Title: "Go Premium", 22px bold white
- Subtitle: "Unlock the full SplitEasy experience...", 13px `rgba(255,255,255,0.75)`

WHAT YOU GET section:

- `SectionHeader` — "WHAT YOU GET"
- 5 `FeatureCard` components stacked vertically

FeatureCard Component:

- File: `src/screens/premium/PremiumFeaturesScreen/components/FeatureCard.tsx`
- White card, borderRadius 12px, horizontal flex
- **Left:** 44×44px icon circle, icon-specific background color:
    - Unlimited Groups: `#EEF2FF` (brandLight), users icon
    - PDF Export: `#D1FAE5` (posBg green), file-text icon
    - Multi-Currency: `#FEF3C7` (pendBg amber), globe icon
    - Receipt Scanning: `#FEE2E2` (negBg red-tint), camera icon
    - Priority Support: `#DCFCE7` (posBgAlt), shield icon
- **Right text block:**
    - Title: 16px semibold `#0F172A`

- Description: 13px regular `#64748B`, lineHeight 19

Upgrade to Premium Button:

- `Button` primary — "Upgrade to Premium"
- Navigates to Paywall

---

22. REUSABLE COMPONENTS

Atoms (`src/components/atoms/`)

Icon (`Icon/index.tsx`)

- Renders SVG icon by `name` (IconName type)
- Props: `name`, `size`, `stroke`, `fill`, `color`, `style`
- All icons currently use placeholder SVG — 50+ icons needed

Chip (`Chip.tsx`)

- Small pill label, selectable
- Props: `label`, `selected`, `onPress`
- Selected: `#6366F1` border + `#EEF2FF` background, `#6366F1` text
- Unselected: `#E2E8F0` border, white background, `#64748B` text
- Height: ~32px, paddingHorizontal 14px, borderRadius pill

Checkbox (`Checkbox.tsx`)

- Square checkbox with label text to the right
- Checked: `#6366F1` fill, white checkmark

Divider (`Divider.tsx`)

- Horizontal or vertical hairline
- Props: `orientation`, `color`, `inset`
- Default: 1px `#F1F5F9` horizontal

ProgressBar (`ProgressBar.tsx`)

- Horizontal fill bar
- Props: `progress` (0–1), `color`, `trackColor`, `height`
- Track: `#F1F5F9`, height 8px default

RadioButton (`RadioButton.tsx`)

- Circle with selection ring
- Selected: brand indigo outer ring, filled center

Tag (`Tag.tsx`)

- Small label pill
- Props: `color`, `bgColor`, `size`
- Used for category labels, status tags

Toggle (`Toggle.tsx`)

- iOS-style switch
- Props: `value`, `onValueChange`, `activeColor`
- On: `#6366F1` track, white thumb

Molecules (`src/components/molecules/`)

AmountDisplay (`AmountDisplay/index.tsx`)

- Formatted currency with optional sign prefix
- Sizes: sm (14px), md (20px), lg (28px), xl (36px)
- Color follows money language

AvatarGroup (`AvatarGroup/index.tsx`)

- 2–3 overlapping member avatars
- Each avatar: circle, member color, initials
- Each overlaps previous by 8px

BottomSheetModal (`BottomSheetModal/index.tsx`)

- Modal sliding up from bottom
- Dark overlay backdrop, dismissible by tapping backdrop
- White panel, borderRadius 20px top corners
- Drag handle: 36×4px pill `#E2E8F0` at top center

EmptyState (`EmptyState/index.tsx`)

- Icon (48px circle, brandLight bg, brand icon) + title + subtitle + optional CTA
- Props: `icon` (IconName), `title` , `subtitle` , `style`
- Used across all list empty states

InfoCard (`InfoCard/index.tsx`)

- Information or warning card
- Variants: `default` (blue), `warning` (amber), `error` (red)
- Left icon, right text block (title + body)

InputField (`InputField/index.tsx`)

- Labeled text input
- Props: `label` , `placeholder` , `leftIcon` , `value` , `onChangeText` , `multiline`
- Height: 52px (single line), auto (multiline)
- Border: 1px `#E2E8F0` , focussed: 1.5px `#6366F1`
- Background: `#FFFFFF`

KeyboardDismiss (`KeyboardDismiss/index.tsx`)

- HOC wrapper — tapping outside any input dismisses keyboard

ListRow (`ListRow/index.tsx`)

- See Settings section above
- Props: `title` , `leftIcon` , `leftIconBg` , `rightLabel` , `onPress` , `showChevron` , `toggle`

PremiumBanner (`PremiumBanner/index.tsx`)

- See Ads section above
- Props: `compact` , `title` , `subtitle` , `ctaLabel` , `onPress` , `features` , `style`

ScreenHeader (`ScreenHeader/index.tsx`)

- Standard stack screen header
- Height: 56px, background `#FFFFFF` , borderBottom 1px `#F1F5F9`
- Left: chevron-back (22px `#0F172A`) — if `onBack` provided
- Center: title (17px semibold `#0F172A`)
- Right: optional action icon/button

SectionHeader (`SectionHeader/index.tsx`)

- Used above grouped content

- Props: `title`, `actionLabel`, `onAction`, `compact`
- Title: 12px semibold `#64748B`, uppercase, letterSpacing 0.8
- Action label (e.g. "See All"): 13px medium `#6366F1`, right-aligned
- Compact variant: smaller vertical padding

SelectRow (`SelectRow/index.tsx`)

- Tappable row for selecting a value from a picker
- Left: label (15px medium `#64748B`)
- Right: value text (15px medium `#0F172A`) + chevron-right
- Border: 1px `#E2E8F0` around full row

UI Components (`src/components/ui/`)

Avatar (`Avatar.tsx`)

- Single person avatar circle
- Props: `initials`, `color`, `size`
- Default size: 40×40px

Badge (`Badge.tsx`)

- Small status pill
- Props: `color`, `text`
- Used for notification counts, labels

Button (`Button.tsx`)

- Primary / secondary button
- Props: `label`, `onPress`, `variant`, `style`, `loading`, `disabled`
- Primary: `#6366F1` bg, white text, 56px, 12px radius
- Secondary: white bg, `#6366F1` border + text
- Loading: ActivityIndicator replaces label text
- Disabled: opacity 0.5

Card (`Card.tsx`)

- White container with shadow
- Props: `style`, `children`
- Background: `#FFFFFF`, borderRadius 16px, subtle shadow

PlaceholderScreen (`PlaceholderScreen.tsx`)

- Temporary screen shown for unimplemented routes
- Centered label showing the screen name
- Will be replaced one by one as screens are built

---

23. NAVIGATION FLOW MAP

```
App Launch
  └── SplashScreen (2s)
        ├── First time → WelcomeScreen (carousel)
        │      └── SignInScreen
        │            ├── Apple/Google/Email → CreateGroupScreen (step 1/2)
        │            │      └── NotificationPromptScreen (step 2/2)
        │            │            └── GroupsHomeScreen (Tab Root)
        │            └── Guest → CreateGroupScreen → Groups
        └── Returning user → GroupsHomeScreen
```

```
Main App (Bottom Tabs)
  ├── Tab 1: GroupsHomeScreen
  │      └── GroupDetailScreen
  │            ├── AddExpenseScreen
  │            ├── EditExpenseScreen
  │            ├── ExpenseDetailScreen
  │            ├── SettleUpScreen
  │            ├── ActivityFeedScreen
  │            ├── GroupSettingsScreen
  │            │      └── AddMemberScreen
  │            └── ExportPDFScreen (Premium)
  ├── Tab 2: BalancesScreen
  │      └── SettleUpScreen
  ├── Tab 3: ActivityScreen
  └── Tab 4: SettingsHomeScreen
        ├── ProfileScreen
        ├── DefaultCurrencyScreen
        ├── NotificationsScreen
        ├── AboutScreen
        └── Paywall (Premium)
              ├── FreeLimitsScreen
              └── PremiumFeaturesScreen
```

24. KEY DESIGN PRINCIPLES

1. **Dark onboarding, light app** — All onboarding screens use the dark indigo gradient. Once inside the app, everything shifts to light `#F8FAFC` / white.

2. **Cards float** — Screen backgrounds are slightly grey (`#F2F3F7` or `#F8FAFC`). Content lives on white cards that "float" above the bg with subtle shadows.

3. **Money is sacred** — Green = good (owed to you). Red = bad (you owe). Grey = settled. Amber = needs action. These four rules never break anywhere in the app.

4. **Brand indigo everywhere** — `#6366F1` is the primary accent: buttons, FABs, active tabs, selected states, links. Never use off-brand colors for actions.

5. **No grey shadows** — Shadows are brand-tinted. The FAB shadow uses `#6366F1` as shadow color, not black. Cards use subtle white/transparent shadows.

6. **Depth via color** — Visual hierarchy comes from background color shifts, not from borders or outlines. Cards are white on grey, heroes are dark on light.

7. **Spring animations** — Button presses use spring physics (scale 0.93–1.0). Logo entrance uses spring. Navigation transitions slide horizontally.

8. **Logo = identity** — The split-circle logo appears at minimum on SplashScreen, WelcomeScreen, SignInScreen, GroupsHomeScreen header, and GroupDetail NavBar. It must always be recognizable at any size it appears.
